ABSTRACT

This document addresses the CLAST results for Miami-Dade Community College (M-DCC) in 2001. The results can be useful in developing strategies to enhance the CLAST pass rates of M-DCC students. Specifically, the document addresses the following three areas: first time and retake pass rates, performance of first time examinees by skill area, students earning CLAST alternatives. The author suggests that students' skills improvement should focus on these areas since it is likely to enhance the students' performance and increase the likelihood that they will pass the subtest. Some of the key findings of the report are as follows: (1) pass rates from 2001 administration were higher in the mathematics subtest for first timers and retakes; (2) despite the fact that M-DCC achieved increases in the mathematics pass rates, the scores remain low; (3) in all of the skills areas, the performance of M-DCC students was generally lower than the Statewide rates for the publics universities and community colleges; and (4) 3,601 students earned a CLAST alternative and 422 students were exempt from the entire CLAST. Contains nine tables, which show the statewide first time examinees in each public institution and statewide results for retake examinees. (MZ)

## CLAST First-Time and Retake Pass Rates Increase in Mathematics

Pass rates from the October 2001 administration were higher in the mathematics subtest for first-timers and retakes. Mathematics first time results reflected an increase of 8 percentage points and mathematics retake results reflected an increase of 2 percentage points. Pass rates also increased for students that took the entire CLAST for the first time (25% passed, an increase of eight percentage points compared to 2000) and for students retaking the English Language Skills subtest (40% passed, a four percentage point increase compared to 2000).

**College-Wide CLAST Pass Rates**

| | First-Time | | Retake | |
|---|---|---|---|---|
| | October 2000 | October 2001 | October 2000 | October 2001 |
| *Essay* | 74% (N=277) | 71% (N=249) | 57% (N=131) | 56% (N=78) |
| *English Lang. Skills* | 48% (N=284) | 48% (N=279) | 36% (N=207) | 40% (N=148) |
| *Reading* | 42% (N=281) | 42% (N=268) | 59% (N=184) | 58% (N=122) |
| *Mathematics* | 32% (N=303) | 40% (N=351) | 47% (N=305) | 49% (N=261) |
| *Total Test* | 17% (N=138) | 25% (N=142) | | |

Although M-DCC achieved increases in the mathematics pass rates, they remain low. This is not surprising since most of the students currently taking the CLAST are the least academically prepared for the exam as they have probably earned C grades in all of the courses applicable to an alternative.

For both administrations, students continued to be most successful in the first-time Essay and retake Reading subtests and least successful in first-time Mathematics and retake English Language Skills subtests. Campus results for the June 2001 administration are given in Table 1 attached.

## Performance of First-Time Examinees by Skill Area Shows Some Improvement

Results from the October 2001 paper and pencil administration reflected some increases and a few decreases. In English Language Skills, there was an increase in two of the three skill areas that ranged from 34 percentage points in Word Choice to 7 percentage points in Sentence Structure, and a decrease of 8 percentage points in Grammar. In Reading, there was an increase of 18 percentage points in Literal Comprehension and a decrease of 3 percentage points in Critical Comprehension. In Mathematics, there was an increase in three of the five skill areas that ranged from 3 percentage points in Algebra to 21 percentage points in Statistics and Probability, and decreases of 2 percentage points in Arithmetic and 4 percentage points in Logic.

**CLAST Skill Areas**

| | # Items | % Correct Oct 2000 | % Correct Oct 2001 |
|---|---|---|---|
| **English Language Skills:** | | | |
| *Word Choice* | 4 | 45% | 79% |
| *Sentence Structure* | 12 | 65% | 72% |
| *Grammar* | 19 | 83% | 75% |
| **Reading:** | | | |
| *Literal Comprehension* | 9 | 57% | 75% |
| *Critical Comprehension* | 27 | 67% | 64% |
| **Mathematics:** | | | |
| *Arithmetic* | 12 | 60% | 58% |
| *Algebra* | 16 | 62% | 65% |
| *Geometry* | 8 | 48% | 53% |
| *Logic* | 6 | 67% | 63% |
| *Statistics & Probability* | 8 | 48% | 69% |

Students in the October 2001 administration were most successful in the skill areas of Word Choice (79% passing), Literal Comprehension (75% passing), and Statistics and Probability (69% passing) within each of the broad skill categories. In all of the skill areas, the performance of MDCC students was generally lower than the Statewide rates for public universities and community colleges (see Table 2 attached).

These results can be useful in developing strategies to enhance the CLAST pass rates of M-DCC students. Students' skills improvement should focus on those areas which include a high number of questions on the subtest(s). This would likely enhance their performance and therefore, increase the likelihood that they will pass the subtest(s).

# INFORMATION CAPSULE: CLAST RESULTS-OCTOBER 2001

**Most Students Continue Earning CLAST Alternatives**

During the October 2001 administration period, **3,601 students earned a CLAST alternative** and 422 students were exempt from the entire CLAST. As in the past, ,more alternatives were granted in the communications subtests of Essay (2,417), English Language Skills (2,438), and Reading (2,505) than in the Mathematics subtest (1,465). Comparisons to alternatives earned during the October 2000 administration are not included in this report. This is due to the addition of ENC 2301 as an eligible course beginning in September 2000 and the very large number of alternatives that were earned in that first reporting period by current students as well as numerous former students.

Most students no longer take the CLAST - they earn an alternative. Education majors are the exception, as they need to take and pass the CLAST for admission to education programs in the SUS and for teacher certification.

**Notes on Method:**

Test results of the October 2001 CLAST administration are reported for M-DCC students who took the CLAST at M-DCC and at other institutions. Results also include Computer Adaptive Test (CAT-CLAST) administrations for M-DCC students who took the CLAST at M-DCC and at other institutions during the period of July 1, 2001 – October 31, 2001. Results are reported for first-time examinees, retake examinees, and students earning alternatives to the CLAST requirement during the above period. Campus results are presented using the students' home campus designation.

The Statewide First-Time Examinees in Each Public Institution report is displayed in Table 3, while Table 4 shows Statewide results for retake examinees. Comparisons with other institutions should not be made due to different criteria in effect for allowing students to take and retake the CLAST, as well as awarding alternatives to the CLAST. Also, the number of M-DCC students taking the test and corresponding pass rates depicted in the State tables may differ from M-DCC results due to reporting procedures.

## II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

| The sample sticker shown below will be affixed to all Level 1 documents | The sample sticker shown below will be affixed to all Level 2A documents | The sample sticker shown below will be affixed to all Level 2B documents |
